REPORT.

To the Inhabitants of the Town of Cape Elizabeth, Maine :

We, the Selectmen, Assessors and Overseers of Poor, Treasurer, Collector, Clerk, Superintending School Committee and Road Commissioners, herewith submit this the Fourteenth Annual Report for the municipal year ending February 6th, 1909, showing receipts and expenditures. The total amount of property as valued by the Assessors and shown by the valuation book for the year 1908, both real and personal, is $1,034,780.00.

The amount of money raised at the Annual Town Meeting, held March 2nd, 1908, was $10,145.79 ; assessed for State tax, $2,656.85 ; assessed for County tax, $848.82 ; Supplemental tax, $31.20 ; amount of overlays, $490.68 ; total assessment, $14,173.34. $100.00 pays $1.30. Number of polls, 230. Polls pay $3.00.

Town Farm.

We retained Mr. Kemp and wife as keeper and matron, and think they have filled their positions satisfactorily, the farm showing improvement in a marked degree, and the house neatness and good care. Quite an amount of inside painting has been done, adding to the attractiveness of the home.

There are four inmates at the farm, who show good care from those in charge. The deficiency, which is comparatively small, shows good management by the keeper.

MONEY EXPENDED
BY THE
ROAD COMMISSIONERS.

The Fourteenth Annual Report of the Superintendent of Schools.

To the Citizens of Cape Elizabeth:

At the beginning of the year I found good working conditions in nearly all of the schools, the teachers doing as well, perhaps, as could be expected under the system. It is true that the mixed grade schools in the country suffer much from various causes, especially from frequent change of teachers. I find in looking over the records of the last five

years that all of the schools have had several changes. Pond Cove alone has had seven in the five years.

When we realize that each of the teachers had to learn the needs of from twenty to forty different children in from five to eight different grades, we can form a fair estimate of the waste time and energy for which the town has paid. Also, when we take into consideration the fact that the teacher in the mixed school, in order to satisfy all the parents all the time, must daily cover the same ground that requires six or eight teachers in the graded schools, it is small wonder that she is often discouraged or fails entirely. Such a school needs a teacher mentally alert, able to see and to do more than one thing at a time, and to make the doing of one thing accomplish something else, at the same time keeping the whole school in hand.

The town has a school problem to solve in the next decade; and while it is always well to do the very best possible with the tools one already has until he can supply himself with a new and better kit, it is not wholly idle to speculate somewhat on the possibilities of the future. The coming trolley line through the town may help in the solution of the problem. We have four teachers teaching less than one hundred children in our own schools. We have thirty children in the South Portland schools. It is easy to calculate with what facility the same teachers could teach the whole if they could be brought together and graded, giving them thorough, progressive training, and when the High School age should be reached having them well fitted. Good training in the common schools is a necessary element for the success of the High School. As the law does not allow any common school studies to be taught in High Schools, except in case of reviews, our common schools should give a more thorough training in those branches.

If it were feasible to centralize the upper grammar grades only and bring them under one teacher, that they might

receive more attention and their work be more uniform than is possible under present conditions, the efficiency of the High School and its value to the town would be doubled.

THE HIGH SCHOOL.

My attention was called early in the year to the necessity of raising the grade of the High School that it might be placed in the rank of the standard schools of the State and to exempt the town from paying tuition for pupils attending other standard schools, whether Academy, Seminary or High School. One course of study only was necessary for the approval of the State Superintendent, but that one course must have contained the college preparatory work. Realizing that many of our pupils would not desire to study the classics, I considered it advisable to arrange two courses, which should overlap each other, one a Classical Course, giving Latin four years and French three years, and a second General Course, which should be much the same as the one already in use, offering the commercial branches, allowing the pupils absolute freedom of choice. The courses of study, as arranged were approved by the State Superintendent, and have been on trial nearly two terms, about half of the pupils enrolled in each. Several have taken advantage of the college preparatory work, hoping ultimately to enter some college in the State. Although both teachers and pupils have had the hardest year's work in the history of the school, it is felt that we should be satisfied with the first results, hoping, as each year goes by, that the school may be strengthened in its weak places and that we may have not only a standard school, but a school where the highest quality work shall be done.

Before application for approval for another year is made a laboratory equipment will be necessary, for which an appropriation is asked.

While the home school is maintained at considerable expense, I sincerely believe that the ultimate aim of an

educational system paid for by the town should be the uplifting of the whole community and that the opportunity for all should be equal, and, as far as the town is able, that that opportunity should be the best. I sincerely believe, too, that the future years will see a steady and healthy growth of the town, and that its school system may be made the binding chain, which shall hold the coming generations together, making loyal citizens for our own town.

Class Song by E. B. J. & J. S. H.:

I.

Classmate dear, the hour has now come; we labor here no more,
Where duty calls us we will follow, as in days of yore.
Long we'll cherish these past school days, and oft recall each joy;
The many pleasant hours we've spent here, time can ne'er destroy.
Although flowers have strewn our pathway, we are sad in heart,
As now the time draws near when we must part;
And if our destined path in life separate friend from friend,
We'll hold the memory of these past years until the end.

CHORUS.

The time has come when we sever each tie to us so dear,
But we will still remember the lessons taught us here,
As duty calls us onward, we must begin labors new.
And to our teachers and schoolmates all, we bid a fond adieu.

II.

We will banish care and let no sorrow mar this day so dear.
While mem'ries bright, in loving light, like angels hover near,
June skies above, sweet flowers around, life's untried sea in view,
We linger here and gaze upon this sea, to us so new,
Thinking how each year went by more pleasant than the last,
And as we hope that kind will be our fate.
We do not fear the coming years, although approaching fast,
But dream to-night of brightness for our class of nineteen eight.

CHORUS.

Respectfully submitted,

LUCY VERRILL,

Superintendent.

JOHN F. PEABBLES, *Secretary.*

Report of Road Commissioners.

To the Citizens of Cape Elizabeth:

Your Road Commissioners would submit the following statement of their work for the past year:

Shortly after their election they met at the town office and organized by the choice of E. D. Jordan, chairman, and L. C. Hannaford, secretary.

A division of the road appropriation ($1,500.00) was made, one-third being assigned to each Commissioner. The division of the roads remains the same as last year.

It is to be hoped that work done upon your roads during the year has not been misapplied, that the work done upon the different sections may be allowed to speak for itself and be given the approval which its merits demand.

In repairing the roads much hard material has been used;

first placing the large stone at the bottom, topping with small stone, then adding a covering of gravel.

We call your attention to the road built in the Pond Cove section, near the residence of Edward Willard, and on the Ocean House road, near the residence of John F. Peabbles. This being a road over which so much heavy travel passes during the summer, it seems desirable that the road should be put and kept in a good and safe condition. Also in the western section, near the residence of W. H. Hutchinson; also in the Spurwink and Bowery Beach section, where there was a large quantity of bank gravel used.

In the employment of labor a constant effort has been made to employ help in the vicinity of the place of the work. This could not always be done. At times the teams and men could not be had in the vicinity, and must be brought from other sections.

The custom of an early outlay of the funds has been followed, the money being nearly all expended previous to the first of July. A detailed statement of our expenditures appears on another page, showing the amount of labor and material furnished by each one the past year.

We ask that the same receive your attention.

EDWARD D. JORDAN,
LEWIS C. HANNAFORD,
CHARLES M. HASTY,
Road Commissioners of Cape Elizabeth, for year 1908.

Cape Elizabeth Veteran Association.

MEMORIAL DAY.

As usual, we assembled at the M. E. church, and, joined there by Sons of Veterans, clergymen and local quartette, first visited Riverside cemetery, then the private graves, returning to Seaside cemetery last. After the service in the

yard we joined our friends in the church, where we were entertained by the Rev. John Collins, of Portland, who spoke in his usual stirring and interesting manner.

Songs and recitations suitable for the occasion were given by the school children.

Lincoln's Gettysburg address was delivered by Miss Edith A. Chamberlain.

In the afternoon we helped to decorate the Soldiers' and Sailors' monument at Mount Pleasant.

J. N. Brown, *President.*

REPORT.

To the Inhabitants of the Town of Cape Elizabeth, Maine:

We, the Selectmen, Assessors and Overseers of Poor, Treasurer, Collector, Clerk, Superintending School Committee and Road Commissioners, herewith submit this the Fifteenth Annual Report for the municipal year ending February 15th, 1910, showing receipts and expenditures. The total amount of property as valued by the Assessors and shown by the valuation book for the year 1909, both real and personal, is $1,141,010.00.

The amount of money raised at the Annual Town Meeting, held March 1st, 1909, was $12,224.28; assessed for State tax, $3,252.06; assessed for County tax, $1,306.38; amount of overlays, $400.82; total assessment, $17,183.54. $100.00 pays $144. Number of polls, 251. Polls pay $3.00.

Town Farm.

We employed Mr. John Kemp and wife as keeper and matron and are well satisfied with their management. The house has been kept with neatness and good care. The inmates, four in number, are well cared for and contented. The stock and equipment on the farm is in first-class condition, and the general appearance of the place shows careful attention on the part of both keeper and matron.

Report of Road Commissioners.

To the Citizens of Cape Elizabeth:

Again, according to the custom of our predecessors, we offer this report, not for the purpose of bringing to your notice any points of excellence in our work, but to sum up, in a general way, what has been done, calling your attention to some points relative to the work the past season.

Soon after election the board organized, with the choice of H. G. Trundy as chairman, and L. C. Hannaford as secretary. Soon after organization a vacancy occurred, L. C. Hannaford resigning, and C. E. Jordan being appointed to fill the vacancy.

In speaking of the work, aside from general repairs, several jobs have been done, somewhat permanent in character, having been underlaid with stone to a depth varying from one foot to four, covered with bank gravel. While this is not an ideal road, it gives good satisfaction.

Of the regular road fund one thousand dollars was raised for a specific purpose, viz., to repair the Shore road. The expenditure here is a little in excess of that amount.

Of the special appropriation for Mountain View Park there is an unexpended balance. All the streets were road machined and surfaced with gravel. There are two places in the park to finish, one near the main entrance, the other near the residence of Mr. Jewell.

The length of State road built this season is 550 feet, width 25 feet or more. The fund was overdrawn. An unfinished strip bears a large per cent. of the overdrawn. We

would recommend that this fund be one thousand dollars at least.

In conclusion, we will add that we think the general road fund too limited to do much permanent work, if we keep within the limits, and do enough repairing to hold the road in satisfactory condition. There are several jobs at too great magnitude to undertake at the expense of the general road fund at present limitation. We ask that the work the past season receive its just merits.

Respectfully submitted,

H. G. TRUNDY,
E. L. DYER,
C. E. JORDAN,
Road Commissioners of Cape Elizabeth.

The Fifteenth Annual Report of the Superintendent of Schools.

To the Citizens of Cape Elizabeth:

It is a pleasure to be able to report that at present all the schoolrooms in town are in charge of teachers who are competent, energetic, faithful, and glad to do more than their share to make their respective schools successful. Very much good work is being done. It is a matter of regret that in the large schools the teacher's time with each class is so limited that much practice work, which would be very effective, must necessarily be omitted. Those children who are quick to comprehend and those who receive home assistance succeed very well, but there is always a certain percentage, that the practiced eye can pick out in a school, which is never helped at home and consequently needs more attention at school. Those parents who do not keep in touch with the school work of their children deprive them of a steadying influence which would mean a great deal to them.

During the year there has been a rapid increase in the number of pupils at Pond Cove school. In two years it has grown from a school of twenty to a school of forty. This spring there will be between forty-five and fifty children between five and fifteen years old in this district. This past year the Ridgeway school outgrew its title of the "Little School". At times chairs and tables have been necessary both at Pond Cove and Ridgeway. It is good to note that both schools have grown better as they have grown larger. A visit to either school is a source of much satisfaction. Miss Clifford is teaching her fourth year at Ridgeway and Miss Bradbury her third at Pond Cove.

It is understood that the grammar grades of both South

Portland Heights and Willard schools will be transferred to the new Broadway school. This will deprive all of our grammar grade children in the tuition belt of a school, an emergency which must be met this coming year. We pay tuition for twenty-three children on the Ocean House road and its branches and for ten on the Cottage road. Under present conditions there is no possibility of accommodating any more in Pond Cove. It seems advisable to increase school facilities and transport all the children on the Ocean House road and its branches to the Pond Cove school.

The argument in favor of consolidating all the schools of the town, establishing a first-rate graded school at Pond Cove, and transporting all the pupils living in the other districts, is good. Many towns find this system better than maintaining several one-room schools. With the good prospect of the trolley line being extended to Cresent Beach, I should advise the town to consider the project of a consolidated school in the center of the town. There is no doubt, if proper transportation could be provided, such a school would be worth infinitely more than the present mixed grade schools. With such a school, directly on the trolley line, it would be possible to give our children the same advantages that are given in city schools. In due time, music, manual training and drawing, which seem so impossible at present, could be added.

Whether or not the consolidation of the schools is advisable, the present difficulties exist and must be met.

THE HIGH SCHOOL.

The new High School law passed by the last Legislature divided the High Schools of the State into three classes, to be designated as Class A, Class B, and Class C. The requirements for a Class A High School are:

At least $850 must be expended for instruction.

At least two teachers must be employed.

The school must be in session at least thirty-six weeks.

An approved laboratory equipment must be supplied.

A four years' standard course of study, approved by the State Superintendent, must be maintained.

A town maintaining a High School of Class A is free from paying any tuition. In order that our school be rated in Class A, a few additions to the course of study already in use were necessary. These were made and the school received its preliminary certificate of approval early in the year. The final approval for the year will not be given until July, 1910, after all the returns for the year have been made. Each term a report in detail of all the work accomplished by the classes has to be sent to the State Department. The school was visited by the State Inspector the first of February.

Only one course of study is necessary for approval, but one course narrows the usefulness of the school; two have been maintained as last year. The work is hard—it is right that High School work should be. The majority of the pupils are doing it very satisfactorily. I feel very confident that the faithful efforts of teachers and pupils will sustain the quality of the work.

A class of nine will be graduated this year. Graduation exercises of the class of 1909 were held June 18, as follows:

Class Ode, Marguerite F. Staples:

Now, my dear classmates,
Our school days are o'er
Soon we'll be starting
Away from the shore.
Studies are ended,
Our books laid aside,
And by our motto,
We'll always abide.

CHORUS.

Truth for our compass,
God as our guide,
Out from this harbor
Our ships will glide.
Storms may o'ertake us,
Waves may toss high,
But He'll watch o'er us,
From the blue sky.

Out in the harbor,
Anchored side by side,
Rising and falling,
With the flowing tide,
Our ships are waiting,
We must say good-bye,
To our old schoolmates,
Of four years gone by.

CHORUS.

The generous support which the town gives its schools is very praiseworthy. Children should be taught by both parents and teachers that the schools cost a great deal of money and that their parents pay for them. They should

be given the proper point of view, that the money is spent for the children and that the teacher's pay is sure whether the children are industrious or idle.

Much of my work has been made easier by the thoughtful kindness of others, for which I feel a grateful appreciation.

Respectfully submitted,

LUCY VERRILL,
Superintendent.

In the last two years much repair work has been done on the Pond Cove and Crescent Beach schoolhouses. This year Spurwink and Ridgeway schoolhouses need considerable attention.

The heating apparatus for the High School is incapable of supplying sufficient heat for both rooms. The waste of fuel is very great. Before another winter this should be corrected.

Cape Elizabeth Veteran Association.

Memorial Day.

As usual, with the assistance of the Sons of Veterans, clergymen and a quartette, we performed our duty, as in the past, by placing a flag and wreath on the graves of our deceased comrades in the several cemeteries in the town, after which we returned to the Methodist church and were pleasantly entertained by its pastor, the school children and the church choir. Miss Emma Peabbles read Lincoln's Gettysburg address, for which we tender her a vote of thanks.

In the afternoon we assisted the South Portland Association in decorating the Cape Elizabeth and South Portland Soldiers' and Sailors' monument.

Report of Local Board of Health.

We have been unusually free from contagious diseases this year.

Several cases of whooping cough was all the disease reported.

Five nuisances abated.

JOHN F. PEABBLES,
Secretary Local Board of Health.

TOWN OF CAPE ELIZABETH.

RULES AND REGULATIONS AS TO PUBLIC HEALTH.

SECTION 1. The execution of the laws and regulations relating to the subjects of internal and external health shall be under the superintendence of the Board of Health, and it shall be their duty, and they shall have the power to enforce all laws, regulations, and orders relating to causes of sickness, nuisances, and sources of filth, existing within the town.

SEC. 2. No persons shall throw or deposit, or cause to be thrown or deposited, in any highway, road, square, lane, or public place, any sawdust, soot, cinders, shavings, hair, shreds, manure, oyster, clam or lobster shells, waste or dirty water, or any animal, vegetable or offensive matter whatever. Nor shall any person or persons throw or cast any dead animal or any foul or offensive matter on any seashore.

Sec. 3. If any of the substances mentioned in the preceding section shall be thrown or carried into any highway, road, square, lane or public place, from any house, woodhouse, shop, cellar, yard or any other place, the occupant of such place, and the person who actually threw or carried the same there, shall severally be held liable for such violation of this regulation, and all such substances shall be removed at the expense of the owner or occupant of the house or other place whence the same were thrown or carried, within six hours after personal notice in writing to that effect, given by the Board of Health.

Sec. 4. Whenever any person shall have been duly notified to remove any nuisance, or to perform any other act or thing, which it may be his duty to perform for the preservation of the health of the town, and the time limited for the performance of such duty shall have elapsed without a compliance of such notice, the Board of Health shall forthwith cause such nuisance to be removed at the expense of the person so notified. And the Board of Health shall cause all persons who shall violate or disobey the health rules or regulations to be forthwith prosecuted and punished. And if, in the opinion of the Board of Health, it shall be for the health or comfort of the inhabitants of the town that any particular nuisance should be removed forthwith and without delay, it shall be their duty to cause the same to be removed accordingly. And if the said nuisance existed in violation of said regulation, then the expense of removing same shall be paid by the occupant of the house or other place where the same was found, and if payment be refused on demand, it shall be sued for in the name of the town.

Sec. 5. Whenever any vault, privy or drain shall in the opinion of the Board of Health, by its filth or dirt, become dangerous to the health, or prejudicial to the comfort of the citizens, the owner, agent, occupant, or any person having charge of the land in which any vault, privy or drain shall

be situated, the state and condition of which shall be in violation of the provisions of this regulation, shall remove, cleanse, alter, repair or amend the same within the time fixed by the Board of Health, after notice from the Board. In case of neglect or refusal to comply with such requirements within the time specified, the same shall be removed, cleansed, altered, amended or repaired by the Board at the expense of the owner, agent, occupant or other persons aforesaid.

Sec. 6. Any accumulation of refuse matter, such as swill, waste of meat, fish or shells, bones, decayed vegetables, dead carcasses, excrement, or any kind of offal which may decompose and generate disease germs, or unhealthy gases, and thus affect the purity of the air within the limits of the town, shall be considered a nuisance, and must be removed or disposed of either by burial, burning or otherwise, and in such a manner that it may not be offensive to the neighborhood wherever located.

Sec. 7. No person shall keep and maintain more than three pigs to be fed wholly or in part upon swill or offal, collected from the houses of other persons than that of the person keeping and maintaining said pigs, except with the permission of the Board of Health, and in such a place, and under such regulations, as shall be determined by them. Any piggery not kept and maintained as aforesaid, and which by reason of offensive odors shall affect the health and comfort of persons in any house, shop, schoolhouse, meeting-house or other buildings, or of any person passing over any public highway, shall be deemed a nuisance.

Sec. 8. Slaughter-houses within the limits of the town shall be at all times subject to the inspection of the Board of Health, who shall have authority to make such rules and regulations as to their condition and the manner in which they shall be conducted, as shall in their judgment be necessary to protect the public health.

Sec. 9. Any person offending against the provisions of the preceding sections, shall forfeit and pay not less than one dollar, nor more than fifty dollars for every offense.

Adopted at a meeting of the Board of Health of the Town of Cape Elizabeth, February 18, 1910.

COPY OF WARRANT

FOR THE

Annual Town Meeting of Cape Elizabeth,

MARCH 7, A. D. 1910.

To Horace G. Trundy, a Constable of the Town of Cape Elizabeth in the County of Cumberland, GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Cape Elizabeth, in said County, qualified by law to vote in town affairs, to meet at the Cape Elizabeth Town Hall, in said town, on Monday, the 7th day of March, A. D. 1910, at ten o'clock in the forenoon, then and there to act on the following articles, namely:

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To see what action the town will take in regard to electing Road Commissioners in compliance with Chapter 4, R. S. as amended by the Legislature of 1907.

Article 3. To choose a Town Clerk and all other necessary town officers for the ensuing year.

Article 4. To hear and act on the report of the Selectmen, Assessors and Overseers of the Poor, Town Treasurer, Collector, Superintendent of Schools, Road Commissioners, and Town Clerk.

Article 5. To see if the town will vote to raise and appropriate such sums of money as may be necessary for the

support of public schools and of the poor; for making and repairing public roads and bridges, for winter and spring highway bills and other necessary town charges for the ensuing year, and will determine the several amounts of such appropriations.

Article 6. To see what compensation the town will vote to pay the Collector for his services the ensuing year.

Article 7. To see if the town will vote to raise and appropriate the sum of $350.00 for Collector's services for the ensuing year.

Article 8. To see if the town will vote to instruct the Selectmen to issue town notes for a time not exceeding two years and to an amount not exceeding $5,000.00, the avails to be used in paying current expenses of the town, provided the same becomes necessary during the ensuing year.

Article 9. To see if the town will vote to allow an abatement on taxes paid within three months after commitment of tax bills to the Collector, and if so, what rate per cent.

Article 10. To see if the town will vote to raise and appropriate a sum of money for abatement on taxes early paid, and if so, what sum shall be so raised and appropriated.
